Retailer Comments

Finance for 3.9% up to 60 months. Price includes warranty up to 160,000 kms or October 31st 2025. Only select vehicles are eligible for the Land Rover-Approved Certified Pre-Owned Program, in which they must pass a rigorous 165-point inspection that verifies its superior condition. The chosen few are fully endorsed by our professional Land Rover technicians and benefit from the enhanced 6 year or 160,000 kilometers of comprehensive warranty. Take advantage of exclusive Certified Pre-Owned finance rates as well as 24/7 roadside assistance on the finest carefully maintained Land Rover inventory. No matter where your journey may take you, your confidence and peace of mind remains our highest priority. If you are looking for a premium SUV, the agile Evoque proves to be a true Range Rover in compact form. 2020 marks the beginning of the second generation of the Evoque with a fresh redesign, but this does not translate to high-end ambience being sacrificed for rugged capability. Arguably the most fashionable Range Rover, the Evoque has been a style icon since its launch in 2012. With a well-appointed cabin with a sleek layout, this metallic Seoul Pearl Silver 2020 Land Rover Range Rover Evoque P300 R-Dynamic SE retains its luxurious reputation with a Narvik black contrast roof, gloss black side vents, mirrors, and grille, and graduated linear bright aluminum trim finisher. Powered by a 2.0-liter turbocharged four-cylinder engine paired to a 48-volt mild hybrid system that produces 296 horsepower and 295 lb-ft of torque with a smooth-shifting nine-speed automatic transmission, the driver is rewarded with a lithe SUV with generously responsive handling. Do not be fooled by its size; this all-wheel drive Range Rover Evoque is wildly competent off-road. Possessing All Terrain Progress Control, which automatically transcends rough terrain at a constant, driver-selected preset speed, making all the necessary drivetrain and suspension adjustments to overcome obstacles allowing the driver to focus on steering, as well as the Automatic Terrain Response system, which adjusts the vehicle's throttle response, transmission strategy, traction control differentials, and chassis control systems based on preset settings (Gravel, Snow, Mud, etc.) chosen by the driver. The avid music fan is amply provided for with 380W Meridian sound system and Sirius XM satellite radio and HD radio. Comfort is exceptional no matter where you sit, with supple ebony grained leather upholstery throughout, dual-zone climate control, and fourteen-way power driver and passenger seats with memory and four-way lumbar adjustability. Stay cozy when the temperature drops with a heated leather-wrapped steering wheel and heated seats for the driver and front passenger. With a slightly longer wheelbase from prior models, rear legroom has been increased for optimal comfort; plus, excellent wind and road noise isolation is enjoyed within the cabin for a subdued ride. You will love the every-day convenience of keyless entry and ignition, a hands-free gesture tailgate, adaptive cruise control with stop & go, navigation, Pro services and Wi-Fi hotspot, and the InControl Apps system, which integrates Apple and Android smartphones in such a way that certain apps look the same on the touchscreen as they do on your device. Night-driving is enhanced by automatic high beam assist, an auto-dimming rearview mirror, front foglamps, power-folding heated memory auto-dimming approach lights, and premium LED headlamps. Your safety is paramount in this BC-only luxury crossover with SOS assistance calling, a tyre pressure monitoring system, reverse traffic detection, blind spot assistance, high-speed emergency braking, and traffic sign recognition with an adaptive speed limiter to help you avoid a ticket. For absolute parking ease, this crossover possesses front and

rear parking aid sensors, and a 360-degree surround camera system with the forward-facing Ground View camera to view under your front wheels.
